Aims Of Communists Promoted By Stooges

Editor, Patriot Ledger:

Recently the Quincy Patriot Ledger printed an abstract from a speech by Allen Dulles, head of the Central Intelligence Agency.

He knows, as no other man can know, and he described communism, its operation and purposes.

He pointed out that one of their methods was the use of subversives throughout the free countries.

Very few of these people are registered Communists. Most of them are stooges whose ignorance and stupidity allow them to be used as agents. We have had two recent examples.

The Sacco-Venzetti trial was a world-wide propaganda stunt to disparage our free system and to belittle us in the eyes of the world.

It merited no more publicity than any other capital trial.

But the so-called "defense" grabbed every perverted headline and willing stooges have kept the propaganda going even to this day.

A monument should be erected to Judge Thayer. His patience under the most trying circumstances represented the highest standards of our judicial system. I know. I was there.

Another group has put on exhibitions supposed to discourage our continued nuclear experimentation. This is Communist propaganda straight out of Moscow.

For a long time they have proposed to the world that as proponents of "peace" the United States should agree to halt nuclear experimentation. Of course this means that we halt our preparations so that we may be more easily conquered.

They have not the slightest intention of restricting their war preparation. Anyone who believes they do or that any sort of a concordat could be made with them is a candidate for a mental institution. It is from this group that the Communists get their innocent subversives.

It is probably well that consciousness of the destruction which hangs over us does not register. We would be living in terror. But we can be alert to those whose stupidity leads them to be the agents of those who would destroy us.

Eternal vigilance is the price of liberty.
